

### New – Physical Inventory Program

pc/MRP's New Physical Inventory Module allows you to enter all your counts for a specified area in one scrollable screen. You can include, sort by and scroll on Part Number, Location, Tag and Division Columns making it much easier and faster to enter your counts. Importing from an Excel File is still available but this method has drawbacks include the same part number may be listed twice, leading zeros in the part number may be deleted, column width may be too short, etc.

### **Ordering Information for Update**

Companies who are currently on a support contract can update for **FREE**. Those not on a support contract can update to version 9.30 for \$845.00. This includes 1 year of technical support (6-hour cap). Companies whose support contract has been expired for more than 1 year will be charged an additional \$200.00 for each year skipped up to a maximum of \$1,500 for a new support contract.

To order the update call Software Arts 408-226-7321.

Holidays such as Thanksgiving, Labor Day, etc. can now be scheduled as non working days with pc/MRP' Infinite Bucket Module. Saturdays and Sundays can be automatically scheduled as working or non working days. Individual days can be labeled and checked as working or non working days.

# New – Number of Routing Work Stations increased from 25 to 50 and added the option to include Comments

The maximum number of routing work stations have been increased from 25 to 50 and up to 256 characters of comments can be inserted for each routing movement.

### New – Work Orders can now display Pick List and the Routing Sequence

Users can now Display/Print Enhanced Work Orders that can include Pick List (Single Level) and or Routing Information.

### New Option to adjust Parts using CSV Files

Added a Stockroom Module option to adjust part number quantities along with comments using CSV files.

#### New – Users can now print out labels for a single or range of Sales/Work Orders E pc/MRP for Wir Inventory - Labels Sales/Work Order Project This option allows users to penerate labels for a single Version 9.22C and Higher elect Sales/Work Order Project Select Sheet Fed or Pin Fed tart at Label 1 Label Type Send To Display - SheetFed -Sales/Work Order Project 1 -Output Type 8.82C or higher Selection Type C One Sales/Work Order Scroll A Sales/Work Order Range 000103 Scroll Report Form • T Save Settings All Sales & Work Orders Ok Cancel Nation: UPPER(LEFT(PARTNO MPNS) Relation: UPPER(PARTMAST PARTN) iard Label: ProjLab2X.lbs NUM

Users can select One label per line item or One label per order. All Sales and Work Orders, Sales Orders Only or Work Orders Only.

### New – Optional Custom 1 Step Multi-Level BOM/Part Importer \$3,000.00 -\$6,000.00 for Agile, Solid Works, etc.

The above One Step Automatic Multi-level BOM/Part Importer was custom built for a customer's Agile files. A custom version could be created for your Agile, Solid Works, Arena, Autodesk, etc multi-level BOMs for \$3,000.00 -\$6,000.00.

# New – Option to Transfer Parts using CSV Files

Added a Stockroom Module option to transfer parts from one area to another area with CSV files.

### pc/MRP VERSION 9.30 NEW FEATURES

#### 9.21A

Much faster/easier method to enter physical inventory counts. Option 16 can be set to allow receiving to insert location based on area selected. Added BOM Model Number Column to Part Status Button Where Used Report. Maximum number Routing Work Stations increased from 25 to 50. Added comment fields to Routing Module for each workstation. **9.21B** 

Improved the response speed of Inventory Screen's Where Used Button. ImportBomLevels now automatically inserts P or A into the ImportBoms Part\_Assy. Model Number now goes into Action, Avail, Exectmp dbf files for Excel Exports. Stockroom auto increments alpha numeric stockroom records with StockIncrForce.Flg 9.22C

Created a command line function to merge PDF documents. PdfMerge.prg Added the option to transfer parts from one area to another area with CSV Files. Added the option to generate labels for one or a range of sales/work orders. 9.22D

Inserts the Y into sales order's IssuedTMF field before printing the IssToMFG PIC List. Added the option to adjust part number quantities with comments with CSV files. 9.23A

User must have Delete rights to click the Address and Inventory Delete Button. Created an enhanced WO form with a single level pick list and the routing sequence.  ${\bf 9.23B}$ 

Fixed the link for DHL tracking caused by changes to the DHL web page Added the option to schedule weekends and holidays to the Infinite Bkt Module

Part Status Button's Where Used now highlights obsolete BOMs with yellow back color. No longer includes Set Up Qty For Cost Roll Up options.

EFX Files can set column's background color and determine record pointer movement All Address Clipboard Functions now insert a comma after the city.

Deleted Line Items will not print out on POs, Invoices, etc unless ShowDeletedItems.flg Converting a Carry Sales Quote will now allow the user to select an issuing area Added a pop up to display fields to be included when updating Sales/PO header info Audit trail will now record edited invoice qtys if user chose not to auto adj inventory

9.23D Functional and cosmetic improvements made on physical inventory screen.

**9.30A** Country of Origin Field added to purchase and receive data base file.

# pc/MRP Optional QuickBooks Interface Module \$430.00

pc/MRP's QuickBooks Interface module exports all open invoice and receivers to QuickBooks. It posts the initial AP and AR entries into QuickBooks and eliminates double entry for those companies using QuickBooks as their accounting module.

- QuickBooks (US) 2007 and above
- Uses API Interface not IIF files
- Backs up QBW file before export
- Supports Sub Accounts
- Supports Sub Classes
- Supports Credit Limits
- Supports Lockout Dates
- Debits COGS, Credits Inventory
- Supports labor in BOMs
- Single and multiple tax vendors
- Supports Sub Items

# pc/MRP Optional Advanced Password Module \$330.00

pc/MRP's Advanced Password Module allows an unlimited number of user name and password combinations to control access rights to each pc/MRP Module.
