## pc/MRP RELEASES 7.90 VERSION

The screenshot displays the 'Chart of Accounts' window and a 'Debit Account' window. The 'Chart of Accounts' window shows a list of accounts with columns for Account#, Account Type, and Credit/Debit. The 'Debit Account' window shows a list of transactions with columns for Date, Time, Description, Invoice#, Receive#, and Balance. Callouts point to various features and buttons.

Account#	Account Type	Credit/Debit
10100000	N	AC
10200000	N	AC
10300000	N	AC
11100000	N	AC
11200000	N	AC
11900000	N	AC

Date	Time	Description	Invoice#	Receive#	Balance
05/10/2004	000005	ABC MANUFACTURING CO WHEEL ASSY	000001	NONE	20000.00
05/10/2004	000006	ABC MANUFACTURING CO REAR WHEEL ASSY	000002	NONE	60000.00
05/10/2004	000007	ABC MANUFACTURING CO FRONT WHEEL ASSY	000001	000001	59950.00
05/10/2004	000008	BBC MANUFACTURING CO NUT	000002	000002	59910.00

Callouts in the screenshot include: '2. Select a Chart of Accounts', '2. Select a Transaction', 'Click here to view transaction', 'Click here to view Invoice', 'Click here to view Receiver', 'Running Balance by Day', 'Sort by Trans#', 'Ending balance 59910.00', 'Cancel', 'View Transaction', 'View Invoice/Receiver', 'Sort by Date, Transaction Number, Company Name, Invoice, Receiver, or Type.', and 'Balance for Chart of Account #'.

### Drill Down Accounting Added

pc/MRP Version 7.90 added a new Drill Down Accounting Option. Users can select a chart of accounts, view all transactions and a running balance for that account. Clicking on the Transaction, Invoice or Receiver will allow you to view that document.

### Added Dedicate Work Orders

pc/MRP Version 7.90 allows users to dedicate work orders to specific sales orders. pc/MRP's Infinite Bucket Module will reserve those work orders for that sales order.

### Ordering Information for Update

Registered owners of pc/MRP can update to version 7.90 for \$600.00. This includes 1 year of technical support (6-hr cap). Companies who are currently on a support contract can upgrade for free. **To order the update or modules call Software Arts 408-226-7321.**

### 10 Debits & Credits, Lockout Date

pc/MRP version 7.90 allows users to enter up to 10 debits and 10 credits per transaction. In addition the accountant can set a lockout date.

## New pc/MRP Slide Show

Software Arts has created a series of training slide shows that can be run at any time by logging on [www.pcmrpw.com](http://www.pcmrpw.com) and clicking on the MRP 101 button. New employees can be trained on pc/MRP by letting them click through these training slides and movies.

## Transition to new Support Plan

Due to the difficulty of supporting multiple versions of pc/MRP, we are bundling the 7.90 update with a new 1yr/6hr cap support plan for \$600.00. We will continue to support users who have outstanding support time until their support time runs out. Once their support time runs out, users must purchase the new update and support plan if they wish to receive support in the future. We will credit back unused support time (at the price paid) for users who want to update and get on the new support plan.

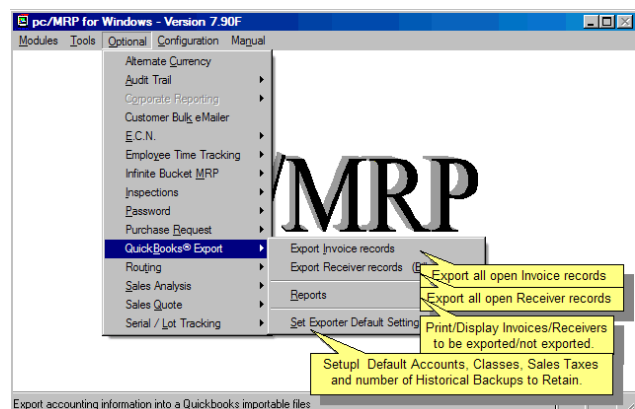

## pc/MRP VERSION 7.90 NEW FEATURES

7.90A Added ability to use multi-level classes with QuickBooks

## pc/MRP's Optional \$295.00 QuickBooks Interface Module

pc/MRP's QuickBooks Interface Module is used to export all open invoices, receivers and post their initial AR and AP accounting transactions. QuickBooks is used to pay bills, record deposits, and print financial statements.

- Uses the API Interface not IIF files
- Copies the QBW file before each export
- Retains a set number of QBW files
- Supports QuickBooks Sub Accounts
- Supports QuickBooks Sub Classes
- Supports QuickBooks Lock Out Dates
- Supports QuickBooks Credit Limits
- Option to print out export log(s)

## pc/MRP's Optional \$225.00 Employee/Time Sheet Module

**pc/MRP's Optional Employee/Time Sheet Module** runs \$225.00 and contains the following advanced features.

- Accounting can create and manage employee records for pay rates, date hired, vacation hours, sick hours, state, and federal withholding \$ amounts.
- Accounting and or individuals can create and manage employee time sheets.
- Accounting can print out actual labor hours and costs for a sales/work order from the time sheet report module.

## ROUTING MODULE \$225.00

pc/MRP's Routing Module contains the following advanced features:

- Up to 25 user definable work areas.
- Issuing parts to manufacturing for a sales/work order automatically creates a routing record.
- Moving product into the finished goods area automatically increments the onhand quantity of finished goods and decrements. WIP quantities

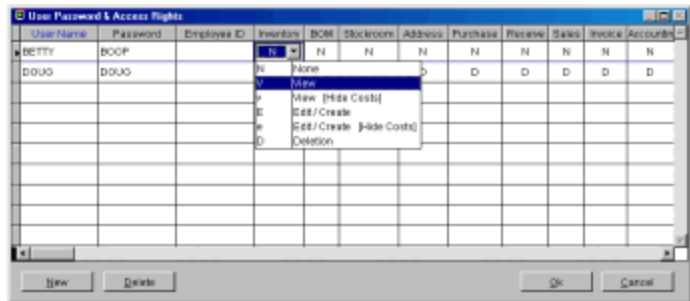

## pc/MRP's Optional \$225.00 Inspection Module

pc/MRP's Inspection Module allows users to create global inspection requirement by:

- Editing a part or assembly
- Clicking on the Inspection Criteria button
- Specifying when an inspection record will be created and displayed (received, manufactured, invoiced or shipped)
- Specifying what criteria will be used to inspect it.
- View, edit and print inspection records.
- Print and or display inspection reports.

## pc/MRP's Optional \$225.00 Advanced Password Module

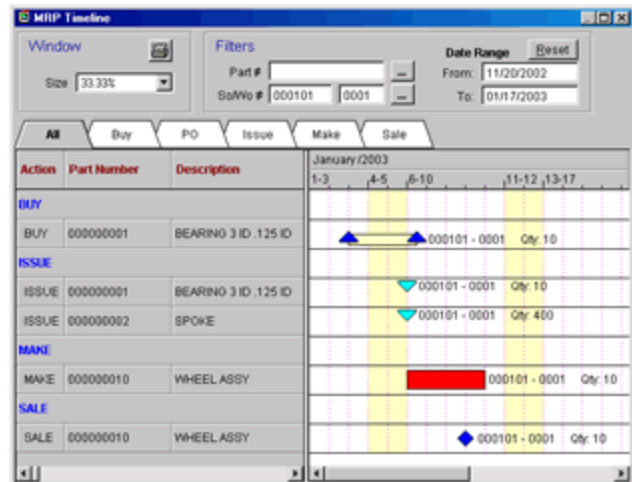

- The advanced password module allows an unlimited number of user name and password combinations to control access rights (delete, enter, edit, view only or no access) to each pc/MRP module.
- Users can change their own passwords by selecting Optional, Passwords and Change password of current user.
- Users must have Delete Rights to re-index files for that module.
- Only users with Delete Rights to the Password Module can activate pc/MRP's Command Line.

## pc/MRP's Optional \$295.00 Infinite Bucket Module/Visual Time Line Reports

pc/MRP's Infinite Bucket Module allows the user to generate an mrp and print out or display action item reports. Action item reports consist of Onhand, PO, Buy, Issue, Make and Sale action items. The action item reports can be sorted by part number, sales and work order number, starting date, ending date, buyer code, etc.

In the Visual Time Line report shown on the right, ten bearings (pn 000000010) must be ordered on 1/3/02, issued on 1/6/02, assembled and sold by 1/09/02 for sales order 000101.

- **Purchase Orders** can be created automatically.
- **Visual Time Line Reports** as shown above can be displayed and printed
- **Issued Shortage Report** displays all current stockroom transactions that are short.
- **Pre Shortage Report** displays all PO and Buy action items with push pull dates.

## pc/MRP's Optional \$225.00 Bulk Email Module

### pc/MRP' New Optional Bulk Email Module

allows you to email newsletters, brochures, notices, etc. to customers, vendors, and employees directly from your pc/MRP address book **at a fraction of the cost of mailing or faxing.** Colorful brochures/newsletters containing pictures and various size fonts can be created in HTML. Simply browse and locate the HTML file with the Message File ... Button. Use the "Messages To Send" spinner to set how many newsletters/ brochures you wish to send each night.

### MULTI-CURRENCY MODULE \$225.00

The Alternate Currency Module allows users to view costs and selling prices in an infinite number of alternate currencies. It adds the option to print out quotes, sales orders, purchase orders and invoices in both the base currency and alternate currency.

### SALES ANALYSIS MODULE \$225.00

Sales Analysis Module contains programs that will:

- Set min/max levels based on sales history
- Provide sales trends over 4 time periods
- Provide book to bill reports
- Print out consolidated (one level) BOMs

### SERIAL/LOT NUMBER MODULE \$225.00

pc/MRP's optional Serial/Lot Number module will track and store serial/lot numbers. Entering receivers or building an assembly will allow you to assign serial/lot numbers. Issuing to mfg or invoicing will allow you to select from a list of serial/lot numbers for that part.

### BAR CODE FONT MODULE \$149.00

pc/MRP 3of 9 Barcode Option consists of a 3of9 True Type Barcode Font allowing users to use pc/MRP's Report generator to add 3of9 bar codes to pc/MRP forms, labels and reports.

### PO REQUEST MODULE \$225.00

The Purchase Request/Quote Module creates, edits, and prints out purchase requests and purchase requests for quotes from a vendor. Purchase requests can be automatically converted into purchase orders.

### SALES QUOTE MODULE \$225.00

pc/MRP's Sales Quote Module creates, edits, and prints out sales quotes. In addition, it will automatically convert sales quotes to sales orders if you receive the order.

### ECN MODULE \$225.00

The Engineering Change Notice Module creates, edits, and prints out ECNs and ECN Reports. In addition, it will also print out ECN reports that notify purchasing of which POs with part numbers that are affected by ECNs issued in the last 30 days.

### EverTrx Online Sales Module \$150.00/Month

This module allows your customers and salesmen to place orders over the internet. The sales orders are automatically downloaded into pc/MRP. In addition, your customers can review their order status and order history. Call 816-353-7006 for additional information.
