Improved Invoice Module

With pc/MRP Version 8.90 the invoice module has been upgraded to perform similar to pc/MRP's sales and purchasing modules allowing users to view prior, next and all line items. In addition the invoice portions of the Inspection Module and Serial Lot Number Module have been tightly integrated into the invoice module.

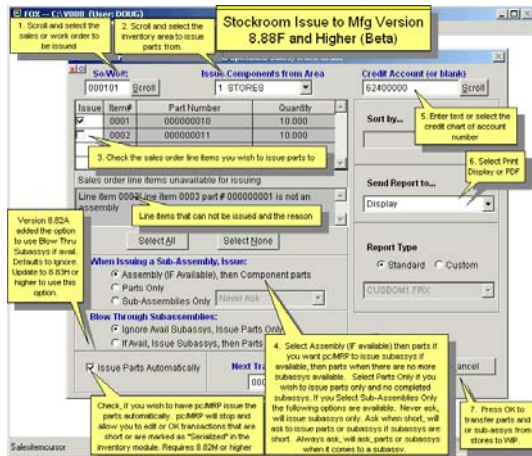

Ordering Information for Update

Companies who are currently on a support contract can update for **FREE**. Those not on a support contract can update to version 8.90 for \$695.00. This includes 1 year of technical support (6-hour cap).

After March 15, 2015, companies that have not purchased a support contract within the last 3 years will be charged \$200.00 for every year skipped up to a maximum of \$1,500 for a new support contract.

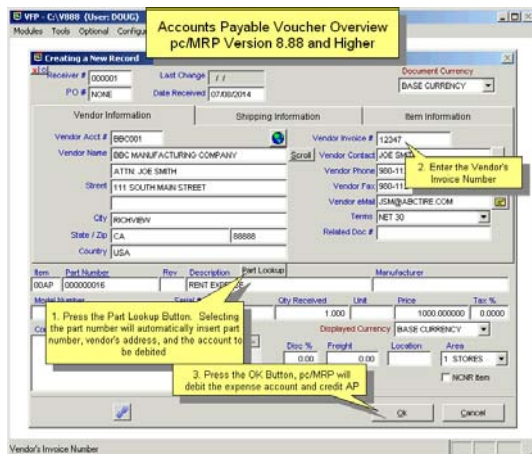

To order the update call Software Arts 408-226-7321.

Improved Issue to MFG Screen

pc/MRP's new Issue to MFG Screen replaces 7 screens used by prior versions of pc/MRP. The concurrency algorithm has also been improved.

Improved AP Voucher Screen

pc/MRP new AP screen replaces 7 screens used by prior versions of pc/MRP

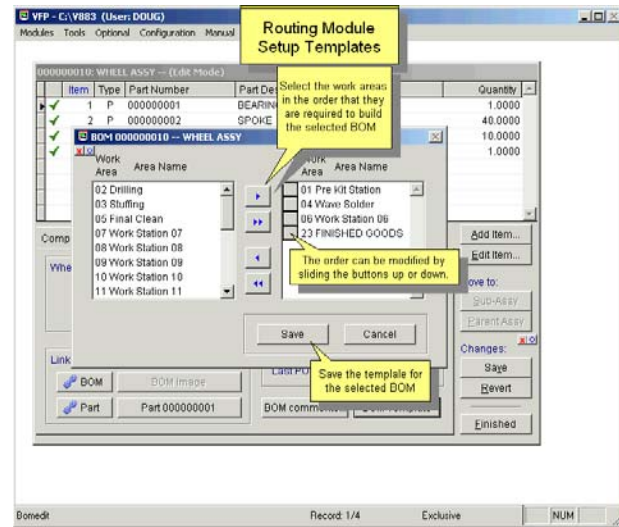

Other New Key Features

More bar code fonts including 2 dimensional
Creates credit memo/check if customer overpays
Incr TaxRate from 3 to 4 decimals
File Links Button turns red if it contains a link

pc/MRP Optional QuickBooks Interface Module \$390.00

pc/MRP's QuickBooks Interface module exports all open invoice and receivers to QuickBooks. It posts the initial AP and AR entries into QuickBooks and eliminates double entry for those companies using QuickBooks as their accounting module.

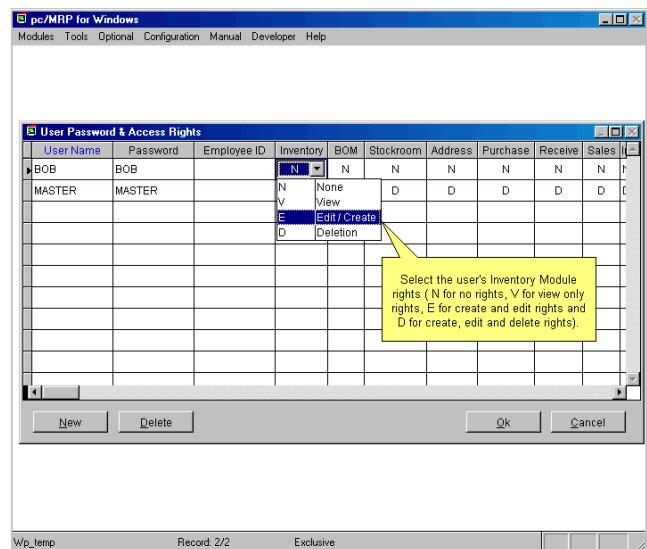

- QuickBooks (US) 2003 and above
- Uses API Interface not IIF files
- Backs up QBW file before export
- Supports Sub Accounts
- Supports Sub Classes
- Supports Credit Limits
- Supports Lockout Dates
- Debits COGS, Credits Inventory
- Supports labor in BOMs
- Single and multiple tax vendors
- Supports Sub Items

pc/MRP Optional Advanced Password Module \$300.00

pc/MRP's Advanced Password Module allows an unlimited number of user name and password combinations to control access rights (No Access, View Only, Enter and Edit, Delete, Enter, and Edit) to each pc/MRP Module.

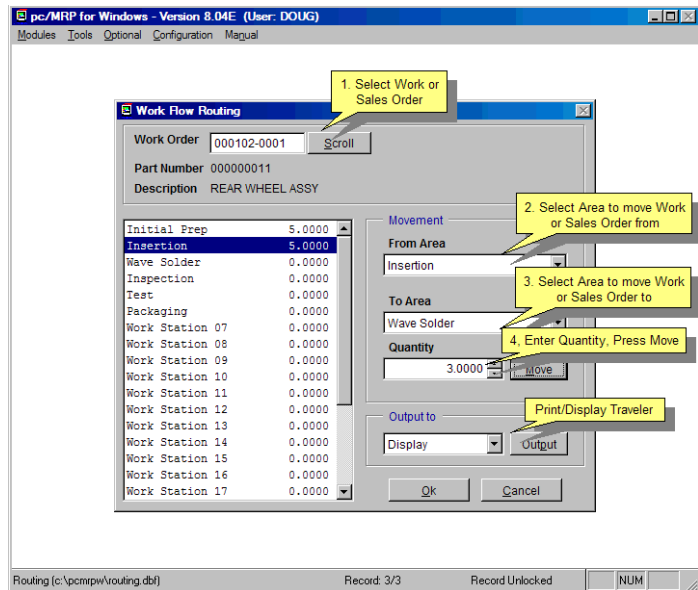

- Users can change their passwords
- Only users with Delete Rights to the Password Module can run pc/MRP's Command Line Function.
- Users must have Delete Rights to a module to re-index that module.
- Password refresh frequency can be set in days.
- Changes to the Password module now take effect upon pressing the 'OK' button.

pc/MRP Optional Routing Module \$300.00

pc/MRP's Routing Module allows users to track the location of sales/work orders on the manufacturing floor. pc/MRP's Routing Module supports the following advanced features:

- Up to 25 user definable work areas.
- Issuing parts to manufacturing for a sales/work order automatically creates a routing record.
- Moving product into the finished goods area can automatically increments the onhand quantity of finished goods and decrements WIP quantities

pc/MRP Optional Employee/Time Sheet Module \$300.00

pc/MRP's Employee/Time Sheet Module allows companies to track the actual labor cost of sales and work orders. pc/MRP's Employee/Time Sheet Module supports the following advanced features:

- Accounting can create and manage employee records for pay rates, date hired, vacation hours, sick hours, state, and federal withholding \$ amounts.
- Accounting and or individuals can create and manage employee time sheets.
- Accounting can print out actual labor hours and costs for a sales/work order from the time sheet report module.
- Accounting department can print out reports of employee's data to enter into a payroll system.

pc/MRP Optional Infinite Bucket MRP Module \$390.00

pc/MRP's Infinite Bucket MRP Module allows users to generate MRP Action Items (PO, Buy, Issue, Make, Sale) and generate MRP Reports. Advanced features include:

- Push Pull Reports
- Sales Quotes with probabilities
- Visual Time Line Reports
